Professional summary:

A detail-oriented and highly motivated person with a strong foundation in data analysis, statistics, and programming. I am eager to apply academic knowledge in data handling, visualization, and reporting to real-world challenges. Proficient in tools like Excel, SQL, Python, and Power BI, with a solid understanding of statistical analysis.

Education

| | | |
|--|------------------------------|------------------------------|
| <i>Bachelor of Computer Science</i> - 90.37% | Shivaji University, Kolhapur | July 2017 – July 2020 |
| <i>H.S.C.</i> - 78.15% | KRP College, Islampur | July 2015 – July 2017 |
| <i>S.S.C.</i> - 95.40% | Modern Highschool, Islampur | June 2006 – Mar 2015 |

Technical Skills

Data Analytics and BI Tools: Power BI, Advanced Excel (Pivot table, VLOOKUP).

Programming Languages: SQL, Python.

Software: Microsoft Excel, Microsoft Power BI, SAP NetWeaver, RPA UiPath.

Database Management: PostgreSQL.

Data Processing & ETL: SQL Queries, Data Cleaning, Data Transformation.

Portfolio & Projects

Excel Project – Vrinda Store Data Analysis (Excel & Power BI) – Improved store performance by 15%

 **GitHub:** github.com/RutujaMSarnobat/Vrinda-Store-Data-Analysis

- Performed data cleaning, processing, analysis, and visualization.
- Provided meaningful business insights to improve performance.
- Suggested strategies for further enhancement.

SQL Project – Music Store Data Analysis (SQL Queries & Joins)

 **GitHub:** github.com/RutujaMSarnobat/Music-Store-Project

- Extracted and analysed data from a database using SQL.
- Utilized joins, common table expressions, and various SQL clauses.

POWER BI Project - Madhav E-Commerce Store Analysis (Power BI Dashboard & DAX)

 **GitHub:** github.com/RutujaMSarnobat/Madhav-E-Commerce-Data-Analysis

- Transformed data using DAX queries in Power BI.
- Developed an interactive dashboard for business insights.
